

# HandyHex™ Adjustable Handle

Hollow Hex handle allows adjustment of the distance a hex blade extends from the handle

**BONDHUS®**  
**LIFETIME WARRANTY**

If any Bondhus® tool breaks or fails to meet your expectations in any way, simply return it. We will replace it free of charge.

High Torque Steel:

Up to 20% stronger, with more torque and twice the wear resistance of standard grades of steel.

## FINISH OPTIONS:

Corrosion-resistant finish:

Environmentally safe, provides better tool grip, resists solvents and is 5 times more corrosion resistant than competitor finishes.

A thumb screw located conveniently at the front of the handle can be tightened to hold the blade or hex wrench solidly in position

The handle allows the user to infinitely adjust the distance the blade extends from the handle because the hole in the handle extends all the way through the handle

The handle will also accept the long or short arm of a hex wrench and act as a handle for the hex wrench
