HEX•PRO™ Pivot Head Hex and TORX® Tools

BONDHUS is pleased to announce the addition of new set combinations to its' new line of Hex•Pro™ Hex and TORX® tip pivot head wrenches. Tools are now available in boxes or clamshell packaging, with or without storage pouches. These tools are built for industrial professionals and have a matte chrome finish to prevent corrosion. They have long handles to provide extra reach, while the pivoting head can be used at any angle, allowing access to fastener heads in hard to reach locations. 7mm and T47 tools have been added to the line. Individual tools are available in Inch (1/8"-3/8"), Metric (3mm-10mm) and TORX® (T15-T55) tip sizes. A wide range of sets are also available. All Bondhus Hex•Pro™ tools have a lifetime warranty.

Pivot Head Hex and TORX®
Wrenches allow tool users to insert
wrench into socket head screw one
time, pivoting around obstacles.

Bondhus Corporation manufactures and distributes innovative, high quality, time-saving tools for use in industrial, electronics, automotive, hobby and machine tool industries.
