Bondhus Introduces Screw Grab: Help Removing Stripped Screws

BONDHUS is pleased to announce the addition of **Screw Grab** to its' product line. Tests have shown a single dab of Screw Grab improves the grip between metal surfaces by as much as 800%. This is especially helpful when removing fasteners with damaged heads. Screw Grab also works instantly to help sloppy or mismatched sockets hold bolt heads and stops drill bits from spinning in a chuck. Screw Grab helps remove all styles of fasteners with damaged heads, is odorless, and easily wipes clean.

Bondhus Corporation manufactures and distributes innovative, high quality, timesaving tools for use in industrial, electronics, automotive, hobby and machine tool industries.
