Category	PROJECT DEVELOPMENT		
Start Date		End Date	31-Dec-20
Has Rates and Hours?	Yes		
Actual Results	Funds were used for staff time to promote and encourage the adoption of no-till, cover crops and created wetlands to reduce nutrient runoff. The Resource Conservationist worked with 1 landowner throughout the year on a 10 acre soil health test plot. This staff person assisted in the collection of data from the demonstration plots. The field plot was open to the public and was held in September 2020		

## Grant Activity - Riparian Zone Management - 2020 Planning and Assessment

Description	<p>Riparian Zone Management - 2020 County Water Planning</p> <p>Comprehensive Local Water Management Plan</p> <p>These funds will be used to participate in meetings etc. to develop a One Watershed, One Plan (1W1P) in the Pomme de Terre, Bois de Sioux/Mustinka, and Chippewa Watersheds. 1W1P aligns planning on major watershed boundaries through watershed plans that are developed and implemented locally. Local governments build on existing efforts, using current local water plans, state and local knowledge and a systematic science-based approach to watershed management. The resulting plans identify actions that address the largest threats and provide the greatest environmental benefits to priority water resources. Planning efforts involve a broad range of stakeholders, including local governments, state agencies and community members as partners in the planning process.</p> <p>213 hours @ 93.77/hr = \$20,000.00 324 hours @ 57.05/hr = \$18,500.00</p>
