STORAGE BUILDINGS

Merickel Lumber offers material only, and estimated package pricing, (including labor, concrete, and material) on both pole frame and stud frame steel storage buildings of all sizes. The main difference between our material package, and that of our competitors is that our base price includes features that are considered add-ons elsewhere. Our material packages come

standard with insulated windows and doors, all prefinished exterior, overhangs (soffit), and a true 29-gauge steel panel exterior with a 45-year paint warranty.

Merickel Lumber is not a general contractor, but we can provide high quality referrals to complete your build.
