

Splish Splash Clothes Bath

RIPON, WI

This clean, well lit, comfortable laundromat was opened in 1994 by owner Brenda Washkovick. Splish Splash is the largest laundromat in Ripon, a thriving community in North Central WI.

Bianca Curtis, General Manager, is Brenda's daughter. Splish Splash has 3 part time employees. The laundromat is open 24 hours per day, 7 days a week.

Dry clean & drop laundry is open M-F. Splish Splash does dry cleaning as well as a lot of commercial laundry for clinics and hospitals, to include sheets, scrubs, towels, linens, exam gowns.

Last year Splish Splash updated their laundry with 12 Huebsch stack 30# tumble dryers and 6 Huebsch top load washers working with James Riopel on MCC. Thanks, Brenda and Bianca.

Pellerin Milnor Corporation, a leading manufacturer of industrial laundry machinery, announced the appointment of Terry Satchwell as Vice President of Strategic Accounts. Terry was a 20 year employee of Milnor before leaving for a few years. Prior to rejoining Milnor, Terry served as EVP Engineering & Technical

Services for PureStar Linen Group which operates 30+ facilities across three countries and 26 U.S. markets. In this role he was responsible for Capex planning, equipment optimization programs, and initiated a companywide CMMS program.

With over 35 years of industry experience in creating cost effective and innovative solutions for linen, uniform, healthcare and hospitality operators, Terry's extensive knowledge and technical background will assist national account customers with increasing plant growth, efficiency and profitability. Scott Voldbaek is our Milnor Midwest Milnor Regional Sales Manager.

Scott was in MN for the Upper Mississippi Valley Association for Linen Management Meeting in June at our customer Treasure Island Resort and Casino.

James Baker and Dan Baker recently visited the Huebsch/Alliance factory in Ripon, WI. Huebsch has a long heritage as a leader in commercial laundry - all the way back to 1907, when Huebsch tumblers were first produced in Ripon, WI. Huebsch currently makes soft mount large washers in an ultra modern, Huebsch owned plant in Prbo, Czech Republic.

Service Tips By Ed

Huebsch Homestyle stack front load washer and gas or electric heat dryer

Washer - If washer goes out of balance often this could be caused by underloading or overloading. Examine your shocks to see if they are worn or leaking oil (Always replace all four at once). Look at the balance switch to see if the wires are loose or the switch is bad. Examine the pressure tubing line to see if it is plugged or crimped.

When a washer goes out of balance it is possible that the machine is not level. Adjust

and lock the leveling bolts. The soap tray needs to be cleaned once a week. Never use detergent pods in the soap tray; they need to go right into the washer. If your machine is not draining check out the clean out on the drain pump. If it is clean, follow the drain line back to floor drain or wall drain to see if it is plugged. The door seal should be cleaned once a week at the 6 o'clock area of the door seal. Remember you can always call for service at 651-288-4857 – we are here to help on the phone, ship parts or schedule a service call.

Dryer - If you are having issues with drying the first thing to examine is the venting. All vent pipes from dryer to exterior should be cleaned at least once a year so you have proper air flow. Keep the exhaust fan clean and free of lint and debris. Check the electric heater coil or gas burner - is it clean? Is electric coil coming on or is it burnt out? If no heat, you may need to reset the thermostat, or if gas, maybe you have a bad gas valve.

Parts Ideas From Barb

Vacations are on the horizon. Many folks are taking time off to enjoy the summer. Before you leave, check your parts stock. Do you have the essential parts for your replacement? What are the essentials you ask? The basic parts for repair to have on your shelf. No one can predict what might go wrong with machines but you can be prepared.

Keeping belts on hand will prevent machine from down time. Stocking door gaskets and drain valves can stop water waste. Valves and valve repair kits are an important necessity. Don't leave your replacement without the basics. Leave them with vital components.

Aaron Brown recently joined our staff as a Service Technician. Meet Aaron: My previous job was as a small engine tech. I also know how to do carpentry, siding, roofing, and I was a supervisor of a 20 person construction crew in the late 90s/early 2000s. I was also a volunteer firefighter/EMT in my home town of Oakville, Iowa and went to school in Wapello, Iowa where I graduated in 1995.

After Graduation I joined the national guard, and I went to basic training in Fort Jackson, SC.

When I'm not working, I enjoy spending time with my friends and family, going to flea markets and garage sales. I like collecting. I have a large collection of movies from Blu-ray, DVD, laser disc, and VHS. I also collect collector cards, comics, video games and toys.
