### Wolf's Dry Cleaners and Laundry – 1354 North 7th Street, Milwaukee, WI 53205

For more than 70 years, Wolf's dry cleaners and laundry has served the Milwaukee and Waukesha area providing a full range of dry cleaning and laundry services. Wolf's is a leader in providing drop off/pickup service to large and small businesses, residential, hotel, and commercial clients. There are four convenient retail locations which also offer alterations/repairs, leather/suede care, household items laundering, and shoe cobbler services. Opened in 1994.

Wolf's is now cleaning with a green, non-hazardous, corn based, biodegradable, halogen-free solution called SolvonK4 introduced by Kreussler Textile Care. This dry cleaning solution is acknowledged as one of the most revolutionary developments in dry cleaning technologies in the last 50 years! World's FIRST and ONLY BIO Based dry cleaning solution as per the USDA.

This solution cleans most trusted delicate garments and even protects colors from bleeding. Dean Sheridan, Kreussler Midwest Technical Sales Representative, recently commissioned the two dry cleaning machines with Solvon K-4 Kreussler Clip COMBI detergent. Wolf's also cleans oriental rugs – see the informative video on their website. [www.wolfscleaners.com](http://www.wolfscleaners.com)

- Huebsch HT075NN, Gas, 75#, Galaxy Micro Control, reversing, OPT True Moisture Sensing Drying various voltages.....\$9,136

All Huebsch dryers (except electric heat) have available in the basket CARE fire suppression including remote connect for cold enclosures.

Other Huebsch dryers in sizes from 25# to 200#. And ask about stainless steel cylinder and panels. Ask about **ADC** and **CLM** dryers in large capacities.

**MSRP is a good BUDGET estimate of final washer or dryer price after discount allowed, freight and delivery added back in. Your price could be less!**

**In these times of unprecedented inflation we try to keep prices updated but please call for latest pricing**

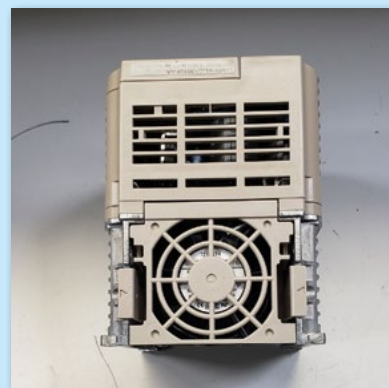

## Service Tips By Ed

### Keep Motors and Inverters Free of Lint!

This month I will talk about the correct way to service your dryer and washer motors and electronic inverters. When cleaning a motor never use compressed air to clean the vents

- you don't want to blow the lint back into the motor! Use a vacuum to remove the lint. Clogged or dirty motor vents cause motors to overheat and burn out prematurely and that is a very costly repair. Also when you service the dryer fan motor that would be a good time to clean the fan blade. Lint build up causes fan to go out of balance which can damage the fan or motor. If you don't keep the fan clean, they go out of balance and can burn out the motor.

Most newer washers and dryers now have an inverter which is a device that changes direct current to alternating current and runs the motor. There are vents to protect the inverter and there may be a filter to prevent lint build up. Clean filter and vents with a vacuum.

## Parts Ideas From Barb

### Ordering Chicago Dryer Parts for Ironers, Feeders, Folders

Be sure to have the Model Name, Model Number and SN for proper ordering, such as:

- Chicago SkylineFolder/Crossfolder S-14, SN XXXXXX
- Chicago Comet Ironer - 66, natural gas, SN XXXXX
- Chicago Tri-Star combination ironer folder 24, 120, natural gas, SN XXXXX

Ribbons need to be replaced when you see that they are frayed or torn. Do not wait until they fly off the machine. Different materials are used when sewing these ribbons, so it is helpful if you know which one it is or where it is located on the machine. Dimensions are very important when ordering ribbons.

There are Canvas ribbons- Polyflake-Nomex and Rubberized ribbons to name a few.

Inspect your chains and burner tips periodically. Sometimes you can clean the burner tips without having to replace them.

Other items to keep on hand are Guide tape and Nomex tie tape.

## Minnesota Chemical Company Service

Our team of service staff are here to help you with repairs, installs, moving machines to a new laundry area or routine maintenance agreements.

Call Ed Jensen, Service Manager, direct at 651-288-4857 for service help, maintenance agreements or a service call.
