### LP5600 High-Speed Single Buck Shirt Press and the LP6000 High-Speed Single Collar Cuff Press

Introduced in 2022, the latest model of the Sankosha single buck shirt press has proven to be a winner with a 25 to 35% increase in production. Based on the solid foundation of Sankosha's proven industry-best legacy design, the current LP5600 has made several improvements that now allow it to take seconds off in the loading procedure and pressing time. A second heat exchanger has been added and steam injection to the sleeves has been eliminated. The same amount of energy is used but utilized in a more efficient manner.

Sankosha LP-5600U

Sankosha LP-6000J

The LP6000 is a new high-speed tensioning collar cuff machine that has been created to pair up well with the LP5600. These two machines are perfect for an operation that typically sees up to 350-500 shirts per day.

### Stain Wizard: Winter Funk

Many of you know that I was born and raised in Southern Minnesota. In fact, my family still farms south of Mankato, so I am very familiar with Minnesota winters. Snow can be beautiful—but it is less beautiful when combined with slush, dirt, road grime, salts, oils, etc. This time of year, it is not uncommon to see a person driving down the road with part of their dress or jacket sticking out of the car door. When I see these folks, I often honk and wave because I know they will be going to the dry cleaners soon!

For dry-cleanable garments with winter muck, EasyGo is the easiest way to return these garments to looking like new using chemistry and lubrication. Simply spray and give the garment as much contact time as possible, then dry clean as usual. The chemistry of EasyGo acts as a ready-made 2-in-1 formula compatible with all solvents.

Contact your Minnesota Chemical sales rep today, and try it for yourself!

- Jeff "The Stain Wizard" Schwarz, A.L. Wilson

The Stain Wizard

## Static Season: Ecolab Xstatic Bars

With the dry winter weather comes an increase in static issues for garments and linen.

Ecolab Xstatic is a commercial laundry treatment solution that is designed to help achieve optimal fabric care and performance by greatly reducing static cling issues in fabrics. Ecolab Xstatic's advanced static control technology helps keep laundry items looking, feeling, and smelling their best, even in the dry winter months.

Xstatic is formulated to provide long-lasting freshness and static control for linens, and is safe for use on a wide range of fabrics, including cotton, polyester, and blended fabrics—a valuable addition to any commercial laundry operation.

Please call 1-800-328-5689 to discuss the product with your Minnesota Chemical sales rep today!

## Milnor Laundry Equipment and the Milnor Technical Knowledge Base

Milnor is a leading manufacturer of commercial laundry machinery based in Kenner, Louisiana. Milnor's Made-in-USA washer-extractors range from 25-700 lbs. capacity. Milnor's equipment is designed to serve a broad spectrum of customers, from OPL washers to automated tunnel washing systems that process 7,000 lbs. per hour or more, as well as dryers, material handling systems, and laundry computer networks.

Have a question about your Milnor equipment? Call Minnesota Chemical today, or search the Milnor Technical Knowledge Base at <https://www.milnor.com/technical-knowledge-base/>.

**SPECIALS IN STOCK: New R&B Wire RBSP-1000 Laundry Floor Scale, List \$2,607, special \$2,500 FOB MCC.**

## Service Tips By Ed

### Milnor Water Valve and Drain Valve Replacement

When your washer produces a “too long to fill” error code, there can be several causes. The machine may not be getting water; solution: check to see if someone turned off the water supply. If the machine’s water supply is good, you either have a bad water valve, or the drain valve may not be closing.

While the machine is filling, check to see if water is also flowing out of the drain. If this is the case, the drain valve should be checked for foreign objects that may be propping it partially open. If there are no objects obstructing the valve, a bad drain valve is likely the issue, and it may need to be replaced. If the drain valve seems to be functioning properly, investigate the hot- and cold-water valves; at least one will be bad. Find which valve is malfunctioning and replace it.

If your machine is overfilling, check the pressure tubing line for clogs and clean out the area down by the drain sump in front of the drain valve. If none of these are the issue, you will need to replace the pressure switch.

As always, please feel free to contact me with your service questions at 651-288-4857.

### Horizon Front Load Washer Door Bezel Reinforcement Kit

For those owners of Huebsch Horizon who have had chronic issues with users abusing doors by leaning on them, slamming them, or ramming them with carts in high-traffic areas, the Frontload Washer Hinge Attachment Kit (807865) may be of help.

This kit includes a door hinge attachment and five screws and nuts, which can be used to reinforce the bezels in case of breakage.

This kit is designed for extreme-use environments. The kit can either be added prior to initial use as a prevention or added when replacing damaged inner or outer bezels.

For more information, or to order a kit today, please contact me in the Minnesota Chemical Parts Department at (651) 288-4849.

## Celebrating the Life of Michael Sullivan

Retired longtime Minnesota Chemical salesman Michael J. Sullivan, age 89, passed away on January 5, 2023, peacefully, surrounded by his family. He was born on August 13, 1933, to John and Faye (Shafer) Sullivan in La Crosse.

Michael attended the University of Minnesota, where he played football as a halfback. He served in the U.S. Army, where he saw a lot of the world, and was honorably discharged in 1955. Michael met his wife, Carol, in the Twin Cities in 1957. Michael started his career with Minnesota Chemical Company in 1959, and retired in 1999. His favorite hobby was spending time with his wife and working in his yard. Michael's son,

John Sullivan, followed in his father's footsteps, and is also a veteran Minnesota Chemical supply sales representative.

Michael is survived by his wife, Carol; their children, Lynn (Eric) Highum, Lisa (Robert) Hagenow, Kelly (Timothy) Cassidy, and John (Nicole) Sullivan; his grandchildren, Lauren (Gerry) Guenther, Carolyn Highum, Shannon Highum, Ashley Hagenow, Sarah Hagenow, Maureen Cassidy, Kevin Cassidy, Trevor Cassidy, Ava Sullivan and Alek Henningsgard; and his great-grandchildren, Norah and Ryann Guenther.
