

Our Customers

SHERATON DULUTH

Situated in the heart of downtown Duluth and just a few blocks from Canal Park, the Sheraton Duluth is always busy. So when a laundry emergency presented itself, Minnesota Chemical worked quickly to get a new Milnor washer installed in a hurry to keep them running smoothly.

Sheraton's Dylan E. on the project: "I've never seen a project like this come together so fast and be executed so well. Kudos to Drake who did a fantastic job and was also done ahead of schedule. Very impressed."

Calendar of Events

September 3 @ 1:00 pm CDT: ALM (Association for Linen Management): Virtual Roundtable – Laundry Operations (FREE)

Prenett PUR

Mild and color-neutral general-purpose prespotting agent for textile cleaning. For use in hydrocarbon and Perc. VOC-free.

- PRENETT PUR can be used undiluted for prespotting textiles.
- PRENETT PUR is particularly gentle on colours, prints, and delicate textile structures.
- Also suited for brushing onto non-delicate leather.
- In hydrocarbon machines without distillation, additional drycleaning detergent is not required if prespotting is performed using PRENETT PUR.
- PRENETT PUR does not contain volatile organic substances (VOCs).

– 30022VRJ, 60#, EP Plus Micro, Temp Control, RinSave, 7 Speed, 208/240/60/3.....	\$21,695
– 30022V8Z, 60#, MilTouch Programmer, Temp Control, RinSave, 7 Speed, 208/240/60/3.....	\$23,495
– 36021V5J, 80#, EP Plus, Temp Control, RinSave, 7 Speed, 208/240/60/3.....	\$31,025
– 36021V7Z, 80#, MilTouch Programmer, Temp Control, RinSave, 7 Speed, 208/240/60/3.....	\$36,795
– 36026V5J, 100#, EP Plus, Temp Control, RinSave, 7 Speed, 208/240/60/3.....	\$34,495
– 36026V7Z, 100#, MilTouch Programmer, Temp Control, RinSave, 7 Speed, 208/240/60/3.....	\$40,475
– 42026V6Z, 140#, MilTouch Programmer, Temp Control, RinSave, 7 Speed, 208/240/60/3.....	\$45,095

– 42030V6Z, 160#, MilTouch Programmer, Temp Control, RinSave, 7 Speed, 208/240/60/3 \$48,275

RinSave saves water and formula time by special speeds and saving 1 or 2 rinses. MilTouch is touchscreen programmer with laptop programmability – transfer formulas by USB stick.

New Dryers at MSRP

– Huebsch HT055FN, Gas, 50#, Dual Digital Timers, Slimline, reversing, passes through 34.5" doorway, various voltages	\$6,864
<i>120#, 170#, and 200# dryers are available in reversing and with Galaxy Micro Control and OPT True Moisture Sensing Drying</i>	
– Huebsch HT075FN, Gas, 75#, Dual Digital Timers, non reverse, various voltages	\$7,185
– Huebsch HT075FN, Gas, 75#, Dual Digital Timers, reversing, various voltages	\$8,597
– Huebsch HT075NN, Gas, 75#, Galaxy Micro Control, reversing, OPT True Moisture Sensing Drying, various voltages.....	\$9,739

All Huebsch dryers (except electric heat) have available in the basket CARE fire suppression including remote connect for cold enclosures.

Other Huebsch dryers in sizes from 25# to 200#. And ask about stainless steel cylinder and panels. Ask about **ADC** and **CLM** dryers in large capacities.

Minnesota Chemical service rate \$140/hr as of 8/1.

MSRP is a good BUDGET estimate of final washer or dryer price after discount allowed, freight and delivery added back in. Your price could be less!

SPECIALS IN STOCK: New R&B Wire RBSP-1000 Laundry Floor Scale, List \$2,607, special \$2,500 FOB MCC.

MCC Service Tips

Water and Chemical Damage to Washers

Leaking or damaged water and chemical lines are an ongoing risk to your equipment that may, over time, cause accumulated damage and premature wear to your washer.

We recommend you inspect your washer daily to check for any water and chemical leaks. If you have a chemical leak, ask your chemical representative to quickly make the repairs. Tubing and connection parts can and do wear out.

Leaky chemicals are often corrosive, which can cause your machine to rust and can damage parts in the machine such as water valves and electronics.

Water leaks at the door seal, at valves and at drains can cause the same kind of damage and can cause shorts in the machine. Water can short out circuit boards, damage water valves, drain valves, and control fuses. Leaking water can rust out your machine very quickly.

An Ounce of Prevention is Worth a Pound of Cure!

Take a look at these pictures to see what can happen. Photos show chemical and water damaged rear-mounted supply chute, damaged shell mounted supply inlet and severe water damage and rusting on a machine bolt down base. (The damage to the washer frame was so severe the washer had to be replaced.)

Call the MCC Service line with any questions about your water or chemical leaks: 651-288-4857

Parts Ideas From Barb

Coin Drops

In stock now: The USA .25 cent Munz Coin drop. These coin drops are used on most Alliance-brand (Huebsch, Speed Queen) washers and dryers. They are for top load and front load washers, stack tumblers, and small dryers.

The coin drop has a sensor inside that can sometimes wear out. It is called the 112 Opto coupler. These couplers are sold separately for about half the cost of replacing the complete coin drop. Call me to discuss which route is best for you.

A rachet extension tool may sometimes be needed for the installation of the coin box. These are available, but sold separately; if you think you may need one, please let me know.

Whatever your coin drop type, if it is not accepting coins or not functioning properly, let us know, we can help!

Fun fact: In 2023 there were 11.5 million quarters in circulation in the United States.

Barb, 651-288-4849

October 2024 Annual UMVAILM Education Conference

Dates: Tuesday, October 1st, 2024 and
Wednesday, October 2nd, 2024
