Hometown Laundry

Hometown Laundry

White Bear Lake, MN

David Huynh is enthusiastic about the vended laundry business. David owns a laundry in Luck, WI and he recently acquired Hometown Laundry in White Bear Lake, MN. His laundries succeed because of David's attention to his customer's needs, providing clean, well maintained equipment with an eye toward modern conveniences.

Visit the WBL location and you will be greeted by a well trained staff, multiple flat screen TV's, washers from 22"-80" and an alternative payment system from Card Concepts. David's new Huebsch washers offer him reliability, tax savings, water savings and added revenue. Dave, his wife Natalie and son Oliver live in White Bear Lake.

Something New

Full catalog of Sankosha covers and pads now available at our website
www.minnesotachemical.com/dry-cleaning-equipment

Find the precise item you need complete with item number and price to ensure easy ordering when you call Barb in our parts department.

Office Supplies

Make your life simpler by ordering your needed office supplies from the Minnesota Chemical website. Click on "Order Supplies" on our home page and then on "Office and Facilities Supplies". This web portal allows you to shop thousands of items that are fully described and competitively priced. Orders placed through this portal will be fulfilled by the MCC order desk and billed either to your MCC account or, if you prefer, to your credit card.

Go to www.minnesotachemical.com and click on the "Order Supplies" tab and check it out!

Your price \$3,594 each! FOB ST PAUL. Delivery additional. Warranty 3 years parts. Subject to prior sale.

Service Tips

Replace your old Huebsch dryer chain drive

Eliminate greasy, noisy chain drive components in older Huebsch 50# and 75# dryers. We have many happy customers with this conversion.

If your dryer is otherwise in good shape, you can eliminate the chain with a kit for under \$400 plus shipping. Note that if you need a chain idler assembly, that part is no longer available and you must upgrade. (Make sure you are not facing other costly repairs such as basket, trunnion or standing pilot replacement before buying the parts. If you have expensive repairs, you may need a new dryer.)

For upgrade from chain to all belt drive, ask for Part # BDK5075. Call 800-328-5689 and ask for Barb in the parts department.

Photos supplied by Mike Profeta of Golden Living Centers.

BEFORE: Old Huebsch Chain/Belt drive.

AFTER: New Huebsch All belt drive.

Our Suppliers

Whether the little square on the side of your laundry carts reads Meese, MOD or Poly-Trux®, we're proud to reintroduce ourselves as MODRoto. The commitment to quality, innovation and personal service stay steadfastly the same as since the company's founding as Meese, Inc. in 1931.

Jameson Emling, Midwest Sales Manager, has just joined the team at MODRoto. His background is diverse, spanning from a decade of military service as an air traffic controller, to raising capital in the private sector for medical biotech devices. As he joins the team at Meese, his fresh start in the company comes with new fresh starts in plastics as well. Meese has recently switched their leadership and geared themselves entirely toward being customer services based, along with new developments in their product line. Most recently, Meese carts are now comprised of high density polyethylene. This poly is lighter, stronger, and more rigid, providing longer lasting carts to pair nicely with their 5 year warranty on all poly bodies. They've also increased their product line with new levels of casters, incurring a good-better-best platform for those looking for a quality budget conscious cart.

Gear Guardian® Equipment for Fire Fighting Gear

Milnor washer-extractors with Gear Guardian® formulas are specifically designed to decontaminate firefighter gear. Anyone can operate a Milnor Gear Guardian washer-extractor. Formula choices are clear. Just pick one of the 10 pre-programmed formulas and press the start button. Milnor's line of T-Series washer-extractors offer a larger cylinder volume than most competitive sized washer-extractors which provides greater productivity. The result is more sets of gear washed per load. Our efficient and durable cabinet dryers with outstanding directed airflow ensure gear is dried quickly, saving valuable time.
