MilTouch is touchscreen programmer with laptop programmability – transfer formulas by USB stick.

New Dryers at MSRP

- Huebsch HT050FN, Gas, 50#, Dual Digital Timers, non reverse, various voltages \$5,098
 - Huebsch HT055FN, Gas, 50#, Dual Digital Timers, Slimline, reversing, passes through 34.5" doorway, various voltages \$5,388
- 50# and 55# dryers are available in reversing and with Galaxy Micro Control and OPT True Moisture Sensing Drying*
- Huebsch HT075FN, Gas, 75#, Dual Digital Timers, non reverse, various voltages \$5,640
 - Huebsch HT075FN, Gas, 75#, Dual Digital Timers, reversing, various voltages \$6,749
 - Huebsch HT075NN, Gas, 75#, Galaxy Micro Control, reversing, OPT True Moisture Sensing Drying various voltages.....\$7,646

All Huebsch dryers (except electric heat) have available in the basket CARE fire suppression including remote connect for cold enclosures.

Other Huebsch dryers in sizes from 25# to 200#. And ask about stainless steel cylinder and panels. Ask about **ADC** and **CLM** dryers in large capacities.

MSRP is a good BUDGET estimate of final washer or dryer price after discount allowed, freight and delivery added back in. Your price could be less!

Service Tips By Ed

Cleaning Huebsch dryer lint compartment – older models

Proper and regular cleaning of your dryer lint compartment is crucial, BUT not doing so carefully and correctly can sometimes cause unexpected damage.

I often take calls from customers who tell me the digital display on their older Huebsch dryer has gone blank. After discussion and investigation, I find a wire just above the lint filter in the

lint compartment has been knocked off by laundry staff cleaning the lint compartment too aggressively. If the wire in the compartment going to the thermistor is disconnected it shorts out on the frame causing the display to go blank. Voltage runs to a connected thermistor, and if it has a short, this may damage the dryer's display board and/or the control board. The cost of these boards together is about \$800.00! (Note that new Huebsch dryers have moved thermistors to the rear of the dryer so they are no longer in harm's way. ADC dryers may have thermistors in the lint area – check before you brush.)

A few minutes of educating your laundry staff to be mindful of the electronics overhead in the lint compartment when they clean lint may prevent expensive repairs.

Clean lint compartment several times per day – but clean carefully!!

Call me for free CLEAN LINT SCREEN reminders to place on your lint screen dryer doors.

Parts Ideas From Barb Please! Please! Please!

Have information ready when ordering parts! Have your manual in your hand. Give model number, serial number and voltage. Know exactly what you want before ordering. Make the phone call yourself. Only you know what you need and how to explain it. Otherwise this could happen to you:

* Ask Barb for a free MCC Koozie with your next parts order.

Dryer Secondary Lint Filters

If you are having trouble with lint from your dryers on the outside of the building or roof where your dryers vent out, we have solutions. Secondary lint collectors by Energenics and Clean Cycle collect 90% of the lint that gets past your dryer lint screen. We have inline models installed in the ductwork, common lint filters for the dryer enclosure area and external filters. Some of these units come with overpressure alarms and fire suppression.

For further information call your Minnesota Chemical equipment salesman and he will be able to tell you which unit would work best in your laundry.

OPL-310 Creates a beautiful landscape outside laundry

MCC People

Phil Hall, Service Technician

Phil joined us in May 2021. Phil had been employed previously at Anderson Windows and United Health Group working in IT/Support and on factory lines. He has a strong electrical, computer and technical background. He wanted more troubleshooting and hands on work – he got it with washer extractor and dryer installs and service calls at MCC. He is a father of three. In his spare time he builds movie props and repairs small electronics and vintage audio equipment. Welcome, Phil.
