

2020 MCC Calendars

We are mailing our 2020 calendars by the second week of December. If you did not receive yours or need another email info@minnesotachemical.com or call **651-646-7521**

For 2020 we feature the new ALLIANZ FIELD in St. Paul, MN, home to the Minnesota United Football Club – Loons Soccer. Minnesota Chemical Co. installed the laundry at the facility.

Milnor rigid mount washers are a great economical choice for on grade installations – capacities from 40# to 160#. MilTouch® touchscreen programmers are available on all sizes. MilTouch® is a full color touchscreen which allows PC or on screen programming, diagnostics, active testing of all inputs and outputs, real-time display of machine operations, infinite water levels and exact temperature control of all water fills. Milnor 40# and 60# rigid mount washers can also be purchased with less expensive EP Express and EP Plus programmers. Scott Voldbaek is our Midwestern Milnor Regional Sales Manager. He travels to MN, WI, IA and ND often. Have you met Scott?

Minnesota Chemical offices and warehouse will be closed for the holidays **December 23, 24, 25.**

Maruso Plastic Nesting UNI Hanger

These new plastic hangers are really something revolutionary! They beautifully maintain hung garments and have the special feature of a multipurpose clip that will securely hold trousers or shoulder straps. Their molded design also allow for convenient stacking for recycling.

These hangers perfectly nest when not in use for easy return to laundry for immediate reuse.

Volume Per Case: 120pcs.

Size: 16.5 inch

Color: Black

\$60.00/case

Multipurpose Clip

Coin Laundry Ideas by Bill Kim

Coin Laundry Dryer Pricing

It makes sense to set your dryers to start with enough time for a customer to dry a full load of clothes – such as 30 minutes for \$1.50 or even \$2.50 depending on your location.

If dryers are set for just \$.25 for a few minutes heat and a minute cooldown, customers may not know how many quarters to insert to assure full dry and cooldown.

Help your customers!

Dry Cleaners and Health Care Laundries:

100% American Made Galvanized Hanger

Consistent Quality

Consistent hooks and neck twists reduce jam ups and runs smoothly through your system.

No paint chips

Nothing to chip off and injure the hands of workers. No exposure to rust.

Chrome Look

Your garments will show better and enhance your customer's image of quality.

Environmentally Friendly

The zinc coating and the wire are completely safe and recyclable.

No Rust

Our safe and long lasting galvanized finish eliminates stains and damage to garments.

Longer Life

Strict manufacturing tolerances, along with the higher tensile strength of our wire, combine to make a stronger and more durable hanger.

Shirt, Suit and Strut styles available from our stock.

Other Huebsch dryers in sizes from 25# to 200#. And ask about stainless steel cylinder and panels. Ask about **ADC** and **CLM** dryers in large capacities.

Service Tips By Ed

Dryer Fire Prevention – tips from US Fire Administration

Clothes Dryer Do's

Installation

Have your dryer installed by a professional.

Make sure the correct electrical plug and outlet are used and that the dryer gas and

vent are connected properly.

Read manufacturer instructions and warnings in use and care manuals that come with the new dryers.

Cleaning

Clean the lint filter before and after each load of laundry. Don't forget to clean the back of the dryer where lint can build up. In addition, clean the lint filter with a nylon brush at least every six months or more often if it becomes clogged.

Clean lint out of the vent pipe every three months.

Have your dryer cleaned regularly by a professional, especially if it is taking longer than normal for clothes to dry.

Maintenance

Inspect the venting system behind the dryer to ensure it is not damaged or restricted.

Do not use coiled-wire foil or plastic venting – use solid ductwork.

Have gas-powered dryers inspected every year by a professional to ensure that the gas line and connections are secure and free of leaks.

Check regularly to make sure nests of small animals and insects are not blocking the outside vent.

Keep the area around the dryer free of items that can burn.

Clothes Dryer Don'ts

Don't use a dryer without a lint filter or with a lint filter that is loose, damaged or clogged.

Don't overload the dryer.

Don't use a wire screen on the outside of exhaust vent. They can collect lint and clog the dryer vent.

Don't dry anything containing foam, rubber or plastic.

Don't dry any item for which manufacturers instructions state "dry away from heat."

Don't dry glass fiber materials (unless manufacturer's instructions allow).

Don't dry items that have come into contact with anything flammable like alcohol, cooking oils or gasoline. Dry them outdoors or in a well-ventilated room, away from heat.

Don't leave a dryer running if you leave the room.

Parts Ideas from Barb

Rejoice for the holidays with family and friends

Stock up for the season before you deck the halls.
Take the stress out of buying when you give us a call.
Deadlines, incidents, shopping and snow.
Errors, noise, busy people on the go.
I will process your orders, so you will not have to wait.
With informative decisions, your orders won't be late.

We wish you a Merry Christmas and a relaxing holiday season.

Fun Fact: 90% of 1.76 billion candy canes sold every year are between Thanksgiving and Christmas
