

## **BOWLING MECHANIC**

A bowling mechanic's job description includes:

- Maintenance: Perform regular maintenance and servicing on bowling equipment, including lanes, pinsetters, balls, ball returns, and scoring equipment
- Repair: Repair and adjust bowling equipment, including automatic pinsetters and scoring equipment
- Troubleshooting: Diagnose equipment malfunctions and perform operational checks
- Safety: Report any hazards or improper use of safety equipment by staff
- Record keeping: Maintain accurate records of parts, costs, and machine performance
- Training: Lead and train assigned personnel, such as pin chaser employees
- Cleanliness and organizational skills: Maintain a clean and orderly work area
- Problem-solving: Be a good troubleshooter and have strong problem solving skills
- Multitasking: Be able to multi-task as the work environment requires some quick responses to calls
- Teamwork: Be able to communicate with and develop solid working relationships with other employees, including ownership, management, wait staff, counter staff, and customers.
- Must be willing to work some nights and weekends.
- Competitive pay and benefits available.
