We Got Refunded!

Clubhouse Colleagues,

I am both relieved and deeply grateful to share that, through our collective effort, we have secured the financial support needed to keep our Clubhouses open and continue our journey side-by-side. This achievement is a testament to the unwavering fortitude, inventive problem-solving, and everyday acts of grace shown by every colleague, staff and member alike -THANK YOU! The encouragement, kindness, and support you have offered one another have made all the difference, meeting each challenge with unity and resilience. You have shown what's possible when colleagues come together, and every gesture, no matter how small, has helped shape our Clubhouses into places of belonging, purpose, and hope. Your spirit of collaboration and mutual support is truly what makes this success possible, and I am profoundly grateful for each of you.

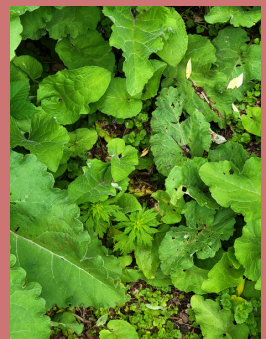

While this renewed stability carries us forward through this year and into 2027, I am especially glad to celebrate this achievement with all of you. Our work is ongoing, and I remain committed, alongside each of you, to building lasting solutions together so our Clubhouses continue to thrive well into the future.

I want to extend my heartfelt thanks to every colleague whose collaboration, strength, and encouragement have anchored us. To our staff: your unwavering support, strength, and commitment to our community have been the foundation and the essence of this successful outcome. To our members: your energy, persistence, and courage in sharing your stories have inspired us all and truly made this achievement possible. Your advocacy and willingness to uplift and support one another are what create our vibrant, welcoming community. I am proud to stand with each of you as we move forward together.

Congratulations and thank you to each and every one of you—WE DID IT!

-Chad

My very exciting news of my life.

By: Heather Zahasky

I want to share the most exciting news of my life. It is my pregnancy. I first found out that I missed my menstrual cycle and ended up taking a pregnancy test and it came out full blown positive. My first reaction was OMG I am in trouble but then I took 2 more and same thing it said positive. Then on December 16th I went to the dr. and got a final say. It was positive. At that point I was 6 weeks pregnant and the very weird thing December 16th of 2016 was my grandma's death date. So, I wonder if it was a sign from my grandma. The due date is August 18th, but I need to be induced because my pregnancy is a high-risk pregnancy. What makes me high risk is I have type 2 diabetes and high blood pressure and my age is over 35. I need to get induced between July 28th to August 11th. I want to schedule to get induced at the end of July. My baby is going to be baby boy, and his name is going to be Maverick Paul Zahasky. The name Maverick is a name I really like, and his middle Paul is named after my dad because my dad is a big support in my life from my mental health to housing stuff and kind of supportive with the pregnancy. As of now (March 27th) I am 19 weeks and 5 months.

Mike O's Reflection on April

The outing at William O'Brien state park was really fun but the lake was dried up but we still had a good time!

Our history theater performance was a blast. We had a good turn out in audience, all the performers did an amazing show!
