

**Alli Truttmann, MA, CPT** is the CEO and Founder of Wicked Sheets, an innovative sleep and bedding company that takes advanced fabric technology and incorporates it into the bedroom. Wicked Sheets began in 2008 in Truttmann's one-bedroom Louisville apartment after being fed up waking to sweat-soaked bedding. After her collegiate career in soccer and Child Psychology, Alli attended the University of Louisville where she earned her master's degree in Psychology and then returned to her undergraduate alma mater, Bellarmine University to become certified in Personal

Training and Medical Fitness. Alli has raised over \$1M in equity funding for Wicked Sheets and competed in both local and global pitch competitions, winning spots on QVC, as well as the Global Startup Grind Conference. Alli's post collegiate career prior to starting Wicked Sheets was spent as a therapist for children diagnosed along the Autism Spectrum. Alli's passion for education and entrepreneurism are demonstrated in her Board participation on the Bellarmine University Board of Overseers and the Louisville Venture Connectors Board of Directors.
